PORTA SLIP-ON™

Optional :

PORTABLE SLIP-ON KITS FOR GRASS FIRE AND BRUSH FIRE ATTACK

Special Features:

- First of a kind, box style tank concept to replace bulky hard walled tanks.
- Complete kit components fit neatly into the carrying bag for easy storage and rapid deployment.
- The sturdy collapsible tank can be filled from either the top filler cap or by reverse flow into the discharge connection.
- Ideal for forestry and municipal fire services, or back-up fire contractors in fighting grass and brush fires.
- The kit price savings can be adapted to mix and matches with various combinations of our portable fire pumps, hoses and nozzles.
- Complete kit components fit into carrying bag. Total kit weighs approximately 25Kg / 55 lbs
